

# Twin Tank Kit

Simple, easy to install  
rainwater tank sediment filter

## Whole of house rainwater tank twin kit

First stage sediment cartridge is a durable pleated polyester which is washable 3-4 times before replacement. This pleated filter cartridge has a larger surface area to maximize its dirt-holding capacity, so cartridge cleaning & changes are less frequent. Second stage carbon cartridge reduces chlorine, taste and odour, and is resistant to bacterial attack.

## Reduces:

- Sediment
- Dirt
- Hair
- Scale
- Rust
- Suspended matter
- Chlorine
- Offensive taste & odour

## Benefits:

- Protect laundry appliances, toilets and wash basins if water is plumbed internal.
- Provide cleaner water for filling pools, washing cars & boats, and external cleaning of houses.
- Reduce blockages in irrigation system sprinkler heads.

### Please note:

- Housings to have limited exposure to UV sunlight.
- The pleated sediment cartridge (only) may be washed with a high pressure cleaner, or replaced when pressure drop is noticed. Carbon cartridge cannot be washed.
- If used for drinking water, IBC Water recommends using a Defender UV sterilisation system to disinfect the water.

<b>Product code:</b>	<b>TANKIT-TWIN-10BB</b>
<b>Dimensions HxWxD:</b>	450mm x 395mm x 200mm
<b>Max flow rate:</b>	38 LPM
<b>Max pressure:</b>	690 kPa (100psi)
<b>Min/max temp:</b>	4 deg C – 40 deg C
<b>Cartridge life:</b>	6 months
<b>In the box:</b>	<ul style="list-style-type: none"> <li>■ 2 x 10" BB (4" dia) housings</li> <li>■ Bracket, spanner, screws, nuts, bolts</li> <li>■ 5 micron pleated washable sediment cartridge (FCW5-10BB)</li> <li>■ 10 micron pleated carbon cartridge (GTP10-10BB)</li> <li>■ Installation instructions</li> </ul>
