Pool Cleaner

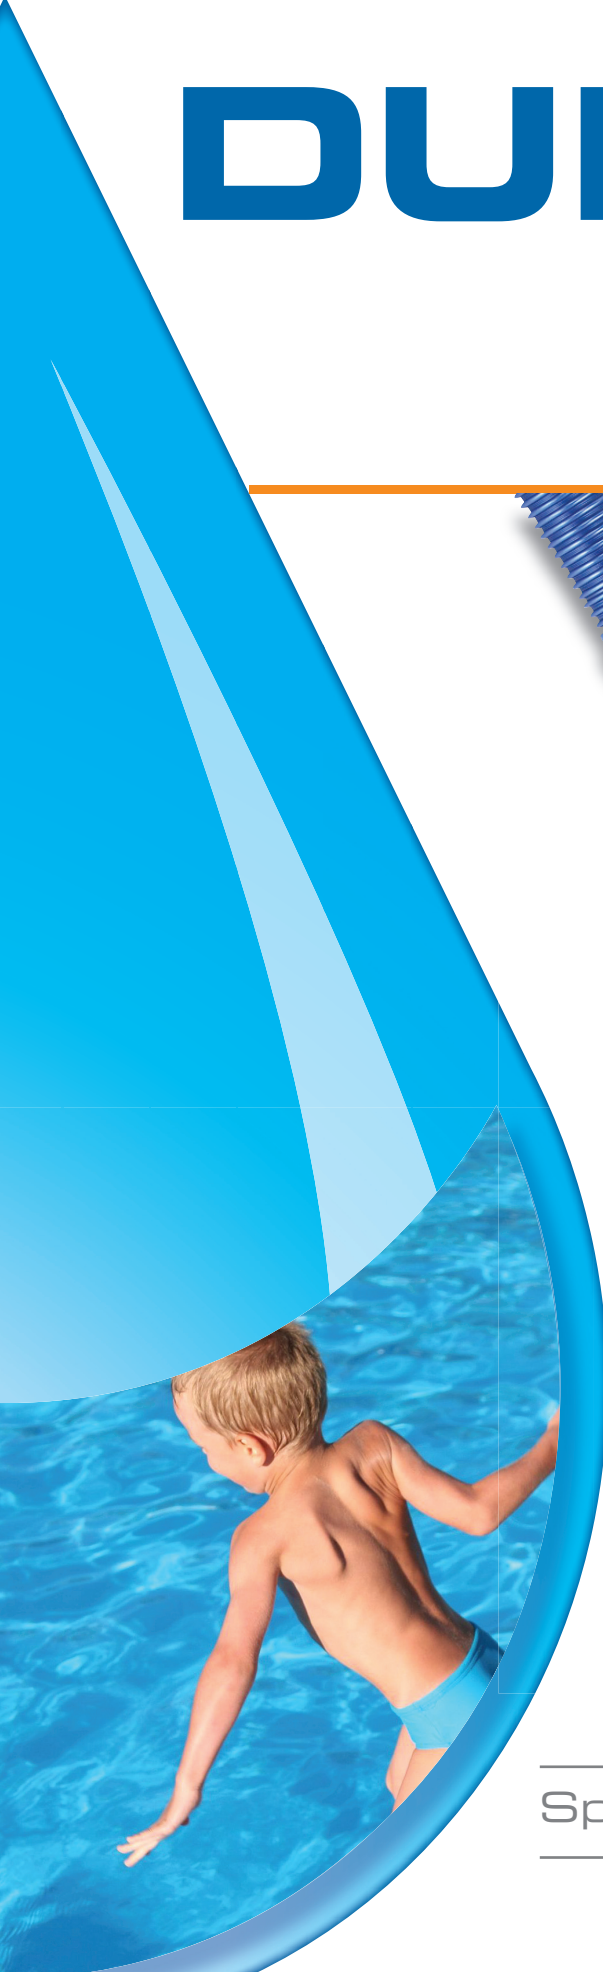

Keeping pools clean  
as a whistle!

Super Quiet Diaphragm Driven

Speed Control via Adjustable Valve

Suitable for all pool surfaces

# DURA-Vac

## High Performance Pool Cleaner

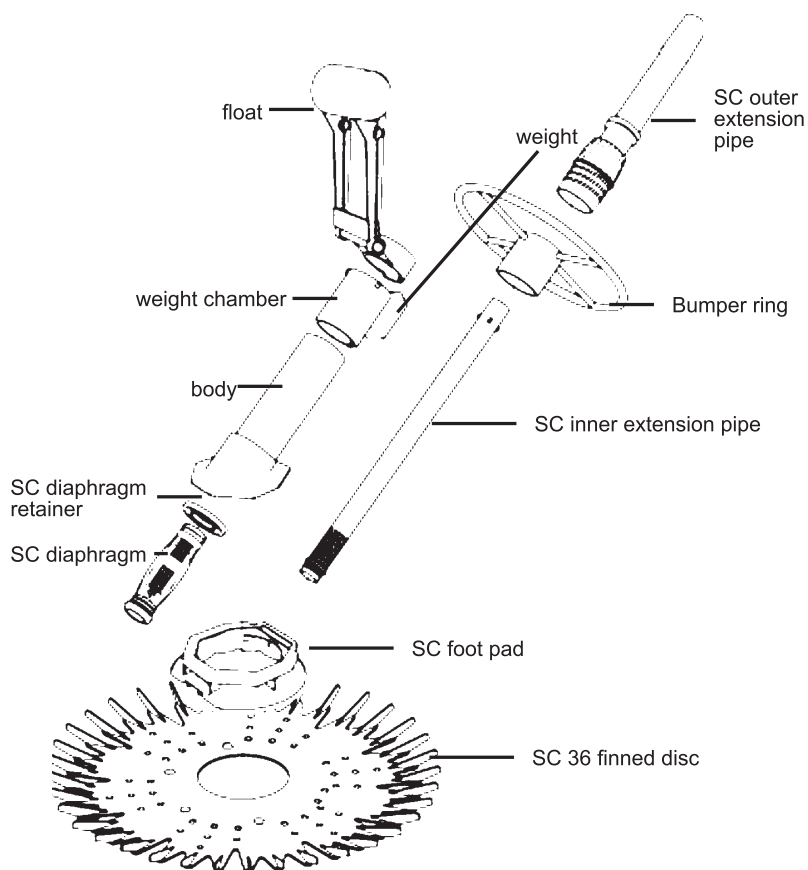

### The super-quiet, super efficient pool cleaner.

The DURA-Vac pool cleaner is designed to quickly and quietly clean every corner of your pool, using the power of your pool pump to suction even the smallest pieces of litter into the leaf strainer – so there's no bags to replace or containers to empty.

Its diaphragm action means only one moving part and ensures extremely quiet operation so it won't worry the neighbours.

The DURA-Vac can be fine-tuned to cover any pool shape and comes complete with 10m of quick-connect hose.

Unique finned disk design enables DURA-Vac to move around obstacles like steps, ladders and lights without missing a beat.

#### WARRANTY

The DURA-Vac Pool Cleaner carries a 3-year manufacturer's warranty subject to correct care and use.
